## **During the time of the Black Hills Gold Rush, a young man claimed a chunk of land just outside of present-day Rapid City, South Dakota...**

His name was John Harrison Hart, and he settled the ranch in the 1880s. It is only fitting that this land bares his name today. Hart was straight from the pages of Old West history, and he carved out his ranching empire while Wild Bill Hickok and Calamity Jane roamed the streets of Lead and Deadwood.

There is much about him, which is legend, but far more which is fact. This bull driver, Civil War fighter, scout, pioneer, and frontiersman blazed a reputation remembered even today by those who live around the ranch. The legend says he arrived in the Black Hills with only \$15 in his pocket and survived the first winter by chopping wood for 75 cents a cord. The facts show his hard work, entrepreneurial skills, and innovative mind parlayed what little he had into a successful freight line from Pierre to Rapid City and Cheyenne, Wyoming.

The legend says he never learned to drive a car, even though he lived to see World War II. The fact is that you still can find people who remember driving him around his ranch when – too old to ride a horse or wagon anymore – he just couldn't stand being away from the land he loved.

The final chapter of our story is the purchase of the 13,000-acre Hart Ranch in 1983 and the construction of the Camping Resort. In 1984, the membership was deeded for the 195-acre resort. There are several other companies associated with the Hart Ranch name – Hart Ranch Golf Course and Hart Ranch Development Company – but the Hart Ranch Camping Resort Club is an independent and separate corporation.

## TV

### Hart Ranch Resort's in house TV Channel Options

Please note that our cable TV service is discontinued due to the aging cable infrastructure of the resort. We are now focusing on the best possible streaming options for our guests and members. If you have a smart TV, you can still stream content seamlessly.

For local TV channels, we recommend using your antenna first, though success may vary depending on the age of your unit. Many guests have found that digital TV antennas from retailers like Best Buy, Walmart, Menards, and Amazon work well, particularly those with a 65-mile range.

You also have the option to bring your own Roku or Fire TV stick, or you can purchase one at the Hart Mart. If you have a subscription to Dish or DirecTV, consider checking your plan's streaming or mobile viewing options.

We understand the current TV service situation is not as convenient as cable TV. However, our primary goal is to ensure robust Wi-Fi connectivity to support streaming and other viewing options.

For connectivity issues regarding Wi-Fi, please call our provider, SkyWeb, at 989-771-7100.

## Spring Creek *Grille* by Ugly Graffiti

We are very excited to announce a new partnership this year! Nathan Dahl along with Lacey Weeldryer of Ugly Graffiti will be operating the Spring Creek Grille for the 2025 season. Many of you may have had the opportunity to taste some of their food at the rodeos or even visited their downtown location in Rapid City.

And while they may introduce some of their featured items to the Grille, they'll still be featuring a similar breakfast, lunch and snack shack menu, with some pleasant additions. Perhaps some of the most exciting things to look forward to will be table side service and possibly being open for dinners on Friday and Saturday nights! Stay tuned for more details to follow!

# BLACK HILLS Map

# BLACK HILLS *Attractions*

## **The Black Hills**

When cavalry Colonel George Armstrong Custer first entered the Black Hills in 1874, he found a strikingly beautiful land filled with mountain meadows, granite spires and thick ponderosa forests. Nearly 140 years later, visitors to the Black Hills can still enjoy the same adventure, free roaming wildlife and breathtaking views that so impressed the explorers who came here so long ago.

With two million acres spanning a region of 120 miles long and 60 miles wide, it's practically an adventure just figuring out where to begin exploring the Black Hills. After all, this region is home to the highest concentration of public parks, monuments, and memorials in the nation.

## **Mount Rushmore National Museum**

One of the nation's most recognizable icons, Mount Rushmore, depicts the faces of George Washington, Thomas Jefferson, Theodore Roosevelt, and Abraham Lincoln, on the side of a granite mountain. You can walk all the way to the base of the massive memorial on the Presidential Trail, although a stop in the Borglum Museum first is a good way to learn more about the mountain's symbolism and history.

## **Wind Cave National Park**

Guided tours of the sixth-longest cave in the world are the most popular feature of this park north of Hot Springs. In fact, adventurous explorers can sign up for the Wind Caving Tour, a four-hour excursion through the most remote areas of the cavern. Adventures await park visitors above the ground as well, where 28,295 acres of mixed-grass prairie and pine forest support a network of hiking trails and abundant wildlife. Bison, elk, pronghorn antelope, mule deer, coyotes and prairie dogs all inhabit Wind Cave National Park, making it the perfect stop for photographers and nature-lovers

## **Badlands National Park**

Almost a quarter million acres of eroded buttes, jagged peaks and sandy plateaus make Badlands National Park one of the most striking landscapes in the world. Sunsets and sunrises are especially beautiful times of the day, casting hues of pink, yellow and orange against the rock walls. Wild bison, coyotes, bighorn sheep and prairie dogs roam freely within the park's borders.

### Devils Tower National Monument

Rising 1,267 feet straight out of the prairie, Devils Tower is perhaps best known for its role in Steven Spielberg's movie, "Close Encounters of the Third Kind." Designated as the nation's first national monument by President Theodore Roosevelt in 1903, Devils Tower is one of the most challenging rock-climbing destinations in the country. A number of less-strenuous hiking trails surround the tower itself, which rests along the red banks of the Belle Fourche River in northeastern Wyoming.

### Custer State Park

This 71,000-acre nature preserve is the home of several camping facilities and rustic lodges, including the state Game Lodge, dubbed the "Summer White House" in 1927 when President Calvin Coolidge spent three months vacationing here with his family. Several lakes and streams provide fantastic fishing, while the 1,500 head of bison that call this place home – one of the largest publicly-owned herds in the world – put on a fantastic show during the annual Buffalo Roundup.

### Crazy Horse Memorial

Crazy Horse Memorial® is located in the heart of the beautiful Black Hills. The elevation on the Mountain is 6,532 feet above sea level and ranks 27th highest mountain in South Dakota. It is made of pegmatite granite and was chosen by Sculptor Korczak Ziolkowski & Lakota Chief Henry Standing Bear for the Crazy Horse Memorial®.

### The Mickelson Trail

Converted from former railroad beds, the 109 miles of the Mickelson Trail bisects the entire length of the Black Hills, connecting Deadwood to Edgemont and passing through many central Black Hills communities along the way. In the summer it's used for hiking, mountain biking and horseback riding, and in the winter months it turns into a groomed snowmobile trail. Tunnels, waterfalls, ruined mining buildings and ghost towns are among the many sights of interest along the trail.

# BLACK HILLS *Attractions*

## Deadwood

There was a time when it wasn't safe to walk the boardwalks of the wildest town in the West, but that was a hundred years and a dozen gunfights ago. This is the town that welcomed Wild Bill Hickok, then wept when he was gunned down holding aces and eights, forever after known as the "Deadman's Hand." This is the place that witnessed the one-woman cyclone known as Calamity Jane, who claimed she could out-shoot, out-spit and out-swear any man, and usually did. Today, both are buried side-by-

side in Deadwood's "Boot Hill." Visitors now encounter brick streets, period lighting, old-time trolleys, Victorian facades and one of the largest historic preservation projects in the world, all fueled by an unlikely benefactor – limited stakes gaming, complete with poker, blackjack and the notorious one-armed bandits.

## Spearfish Canyon

The breathtaking limestone palisades of this creek-carved gorge are more ancient than the Grand Canyon – albeit much closer together. The narrow walls of Spearfish Canyon, which rise up to 1,000 feet above the creek bed, are among the most spectacular scenery in the Black Hills. Cascading waterfalls quench the thirst of quaking aspen, gnarled oaks, sweet-smelling spruce and the ubiquitous ponderosa pine, which grow right off the edges of rocky precipices. The diverse array of plant life provides a comfortable home for deer, mountain goats, porcupines and bobcats. The canyon was accessible only by horseback until a railroad line to Deadwood was completed in 1893. When a flood in 1933 all but destroyed the tracks, a motorway was built right on top of the old rail bed.

Today, this road is US 14A, one of America's few scenic byways. The highway continues through the canyon for nearly 20 miles, affording visitors views of both its pristine natural wonders and its historical treasures. Near the middle of the canyon is the old sawmill town of Savoy, which provides a jumping off point for several scenic hikes and forays into ancient mining and logging camps. Further up the canyon is Cheyenne Crossing, the point where the gold-rush era Deadwood-Cheyenne stage line crossed Spearfish Creek.

# WI-FI *FAQ's*

## How do I know if I have a compatible device?

- » If the device has a web browser it should be compatible. If you have any questions regarding compatibility, please consult your devices manufacturer's manual for further information.
- » Not all smart TVs are compatible, so be sure your smart TV is capable of connecting to Wi-Fi networks.

## Is the Wi-Fi secure?

- » Your connection to the Hart Ranch Wi-Fi Networks is intrinsically safe. Connected Network device are unable to share information or otherwise be compromised by other connected network devices.

## How much bandwidth should I have?

- » This is certainly subject to your device's antenna and ability to receive Wi-Fi in or around your location. We have set the minimum level of bandwidth at 10mg down and 5mg up. This, however, is operating in perfect conditions without interference. Gaming and/or excessive streaming may result in slow download and upload speeds.

## What if my Wi-Fi connection drops?

- » Wi-Fi by nature may drop from time to time due to

several factors ranging from weather, other devices, or your device losing connection. If you have recently rebooted your device or returned to the campground and your device does not re-establish on it its own, you may need to go to your Wi-Fi settings and connect to the Hart Ranch network again. If this does not work, please go to Wi-Fi, and click forget this network and re-establish again.

## The internet doesn't work inside my RV and only works outside my RV.

- » If this is occurring, then the network is working properly. In some cases, depending on the construction of your RV, signals can be blocked inside the RV. This happens more frequently on metal or aluminum sided RV's. This type of siding can either block or minimize the Wi-Fi signal.

## Additional Support

Please call SkyWeb Technical Support Hotline at 989-771-7100 and tell them you are a guest at Hart Ranch Camping Resort, your site or cabin number and that you would like support with your Wi-Fi connection.
